Sport Airport Osijek

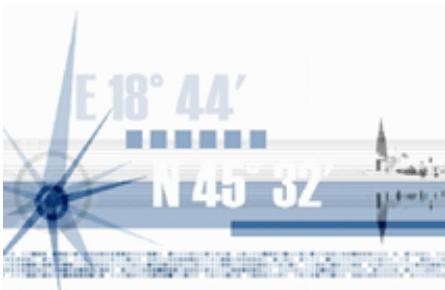

Sport Airport Osijek

NOTAM

During F3J European Championship 2005 (17 - 23 July 2005) Sport Airport Osijek will be closed for all flying activities except aeromodelling flying and other aeromodelling activities.

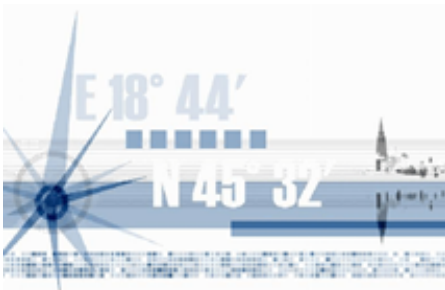

Airport from the air

Accommodation

- Organiser will provide sleeping in the premises of the Sport Airport at very affordable prices.
- There will be possibility of camping with use of bathrooms.
- There are several hotels in Osijek, not far from the airport, with single and double rooms and moderate prices. (Bed and breakfast starting from 25 EUR).

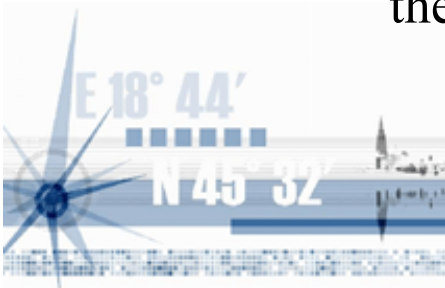

Experience in organising FAI events

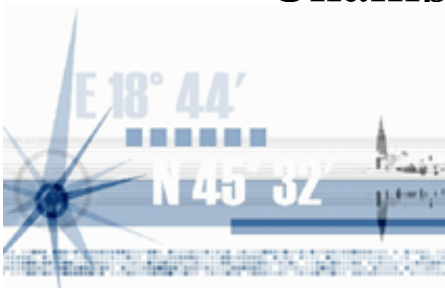

15th Precision Flying World Championship held in Zagreb, Lučko

95th General Conference of the FAI held in Dubrovnik

F3J in Croatia

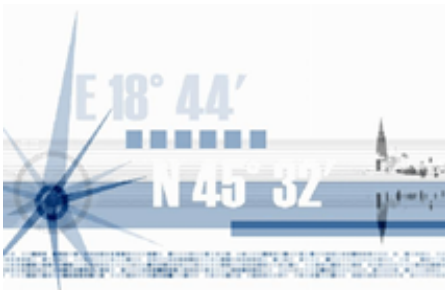

- F3J competitions in Croatia started as early as 1992.
- Every year we have 5 to 6 competitions for National Cup and one National Championship plus 2 international Contest Eurotour events.
- Croatian National Team has taken part in all F3J European and World Championships and has been rather successful.
- On the last years World Championships in Finland our team was placed fifth and year before on European Championship in Slovakia we were fourth.

Additional bonuses

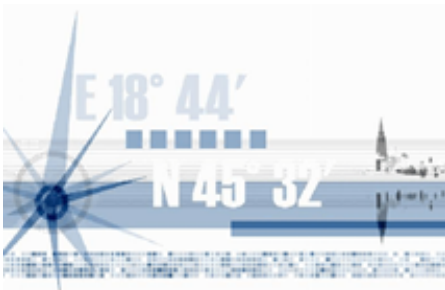

National dishes from this part of Croatia are well known so we ensure you that the banquet will be one which you will remember.

Why Osijek, Croatia? (In short)

- Airport will be closed for any other activities except aeromodelling flying for European Championship.
- Sport Airport Osijek offers excellent conditions for thermal soaring.
- On Sport Airport organiser will provide sleeping in beds under a solid roof (50 persons).
- There will be possibility of camping with use of bathrooms.
- There are several hotels in Osijek and they have moderate prices.

Why Osijek, Croatia? (In short)

- For every team organiser will provide tents or shades for competitors, models and equipment during a day with electric power supply.
- During a night models and equipment will be stored in hangar.
- All results will be available on the Internet several minutes after finishing the rounds.
- As Osijek is very conveniently situated in central Europe, all participants can easily reach it and the teams coming from countries with lower standard can benefit from moderate prices.
- **We have a lot experience and good will to organise European Championship 2005 for class F3J.**
